

# 5<sup>th</sup> International Forum on Research and Technologies for Society and Industry

*Innovation to shape the future*

Firenze, Italy, September 9-12, 2019

**CALL FOR SPONSOR**

RTSI is the premier IEEE Italy Section forum. Its purpose is to foster technological innovation and excellence in the fields of electrical, electronic and information science and engineering, to promote the transition towards a vibrant innovation-based society. Specifically, the main objectives of the event are:

- to promote and to strengthen partnerships and cooperation between academia and industry;
- to increase the public's understanding and awareness of how engineering and technology can positively affect people quality of life;
- to promote discussion between research community and government bodies about effective and successful research policies;
- to disseminate recent advancements, discoveries and novel applications;
- to discuss ideas and to promote cooperation between researchers working in different research areas.

RTSI aims to be the flagship event of the IEEE Italy Section and the program will include tutorials, exhibitions (research projects, academic spin-off and industrial sponsors), industrial sessions, and panel sessions. RTSI will provide a great opportunity for companies involved in the above mentioned fields to present their activities, to meet the stakeholders and to contribute to the national and international debate about what is going on in these relevant fields which are playing a crucial role in the worldwide economy.

Please find below the possible Sponsorship Opportunities. The Organizing Committee will be glad to provide any further information.
