

# **SPECIAL EVENT WITH INDUSTRIES - LEONARDO 500**

Firenze, 11 September 2019

## **Summary**

This is the fourth meeting of IEEE Italy Section with Italian Industries with the objective to inform all participants of the initiatives that IEEE Region 8 (Europe, Africa and Middle East) and IEEE Italy Section are promoting, in favor of industries.

A special moment to celebrate the 500th anniversary of the death of Leonardo da Vinci - "artist and engineer" - will open the event.

Then, through a round table, industry representative members Italian Companies and of IEEE will face and debate possible questions such as:

What the Big industries would like to see from IEEE?

What competencies are required by the big industry to sustain growth, innovation and competition?

How can IEEE ease connect students and PhD with industry?

IEEE Standards: which fields are of interest of Italian industry? Who is interested to contribute to influence and design them?

Training and education: IEEE offer a lot of webinar, we assume they are well known. Is the Italian context asking for something specific/proprietary?
