# Questions

- What the Big industries would like to see from IEEE?
- What competencies are required by the big industry to sustain growth, innovation and competition?
- How can IEEE ease connect students and PhD with industry?
- IEEE Standards: which fields are of interest of Italian industry? Who is interested to contribute to influence and design them?
- Training and education: IEEE offer a lot of webinar, we assume they are well known. Is the Italian context asking for something specific/proprietary?
